Subject: Portland Harbor CAG Special meetings

CAG Members and friends,

Due to scheduling changes, this is short notice, but I want to invite you to participate.

On Tuesday evening (tomorrow, September 22) at 7pm at the BES Water Lab (6543 North Burlington), we will have the Steering Group meeting. At this meeting Alanna Conley is asking for input regarding the EPA's Community Involvement Plan (CIP) which will be used for community participation in the Portland Harbor cleanup Proposed Plan. All CAG members, plus anyone else interested in discussing the CIP is invited to be at this meeting, Tuesday.

Also, we will be able to consider appointing additional CAG members, which is important as we enter into this critical phase of the Superfund process. Anyone who would like to join the CAG should be at this meeting.

Wednesday evening at 7pm we will have a conference call with Peter deFur regarding his review of the Conceptual Plan and the final chapters of FS. Peter will be able to outline for us the major issues and what we need to be concerned about in preparing comments to submit to the National Remedy Review Board. Note: This conference call is for CAG members only and I will send out call information to the CAG members as soon as I have it.
